DETAILED ACTION

Allowable Subject Matter

1. Claims 1-2, 4-11, and 13-17 are allowed.

The following is a statement of reasons for the indication of allowable subject matter: the allowability recites at least in part: the fixing part has an edge projecting toward the inside of the housing, and the fitting piece of the bracket butts against the edge when the circuit board is housed in the housing or that the circuit board has a terminal at one end, and an edge facing to the cover at the other end opposite to the terminal; and the housing has a connector to which the terminal of the circuit board is removably connected or that an ejection lever for taking out the circuit board from the housing, the ejection lever having a first end contacting with the outer plate, a second end operated manually, and a middle part supported rotatable by the bracket between the first and second ends; and the circuit board is ejected from the housing taking the first end of the ejection lever as a point of action, when the ejection lever is rotated in the direction of pressing the first end to the outer plate.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
